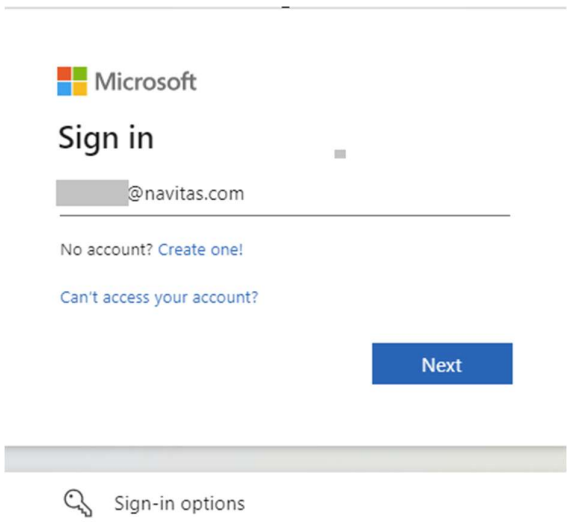
# Multi-Factor Authentication (MFA) End User Guide

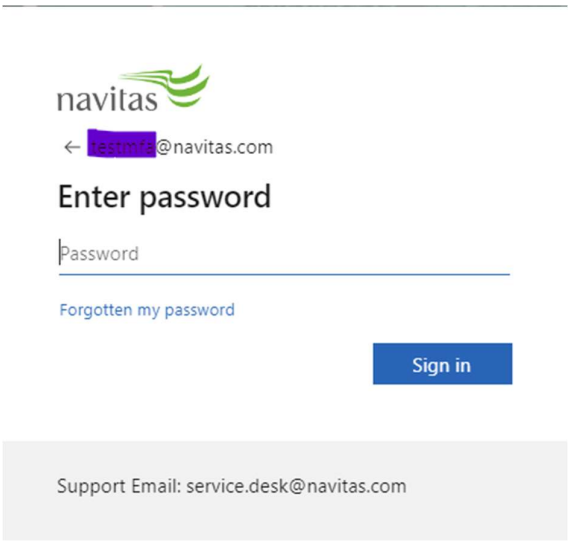
**Enrolling in MFA to secure your Navitas account**

Use your smart phone's relevant app store to download and install the **Microsoft Authenticator** app. The icon for the application looks like this: . Select to download and install the application. Once installed you will need to go to the MFA setup URL to enroll your Navitas account.

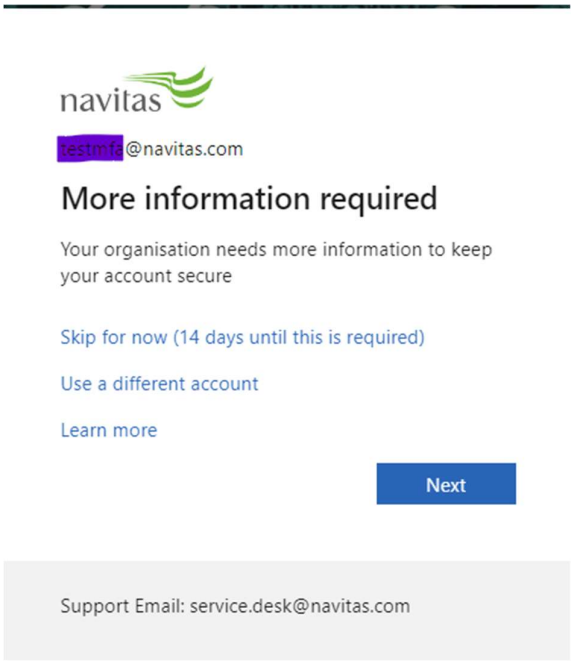
1. Open your choice of web browser and enter the following URL into the address bar: https://aka.ms/MFASetup
2. Type in your username



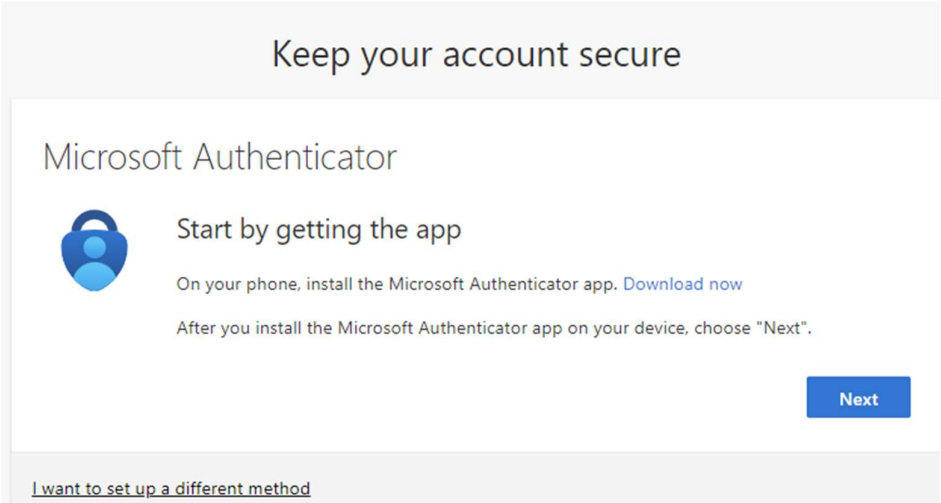
3. Type in your password



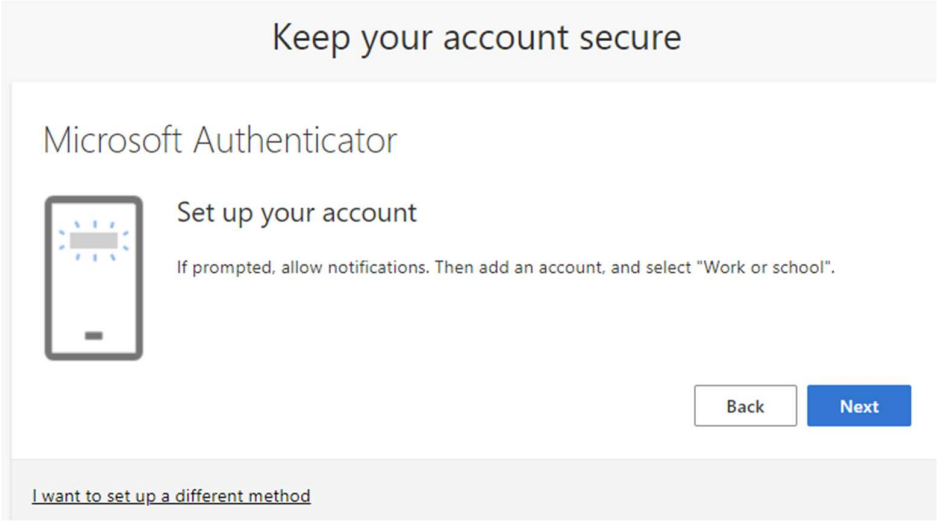
4. You will be presented with the following screen, whereby you will need to click **Next** to begin enrollment.



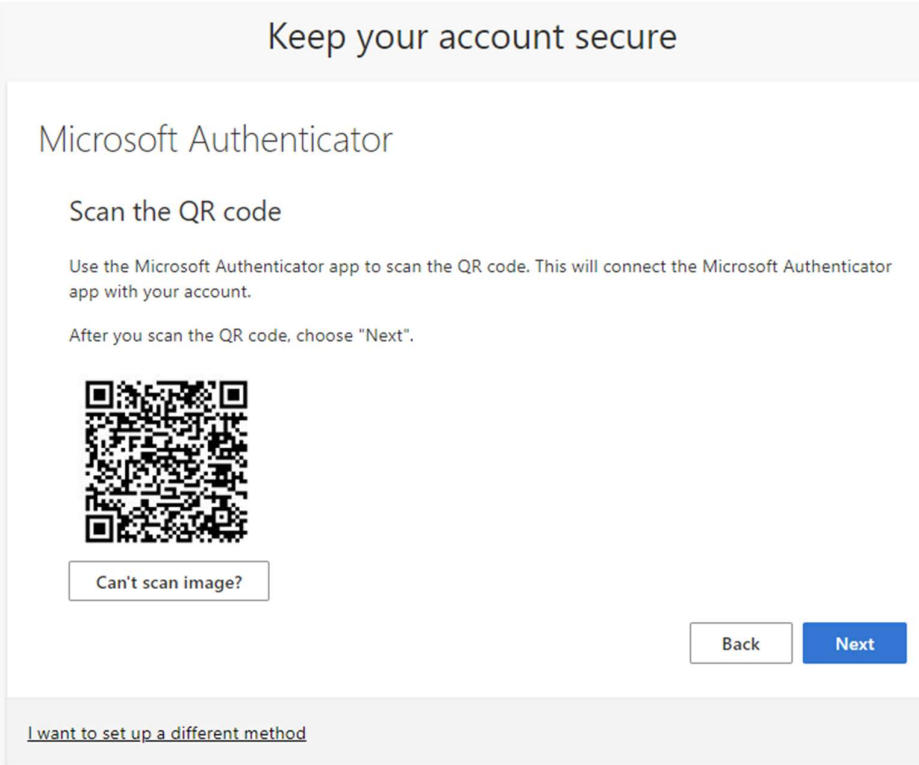
5. You will be presented with the **Keep your account secure** page. The Microsoft Authenticator app is preferred in this case.



6. Follow the on-screen prompts when you have opened the Microsoft Authenticator app.
7. Open the **Microsoft Authenticator** app that you downloaded earlier. Click on **Add an Account** and then select the **Work or School account** option.



8. You will then be presented with a **QR code** to register your account with the Authenticator Application.



9. You will need to use the camera on your phone to scan the QR code shown on the website. Remember not to scan the QR code on this guide as it is only used for the purpose of this guide.

10. *Note: You may be prompted to allow the **Microsoft Authenticator** app to access your camera. You will be required to allow access otherwise you cannot proceed with the enrolment.*

11. You should then be prompted to allow notifications from the **Microsoft Authenticator** app – you will need select Allow otherwise this process must begin again.

12. Once Complete, go back to the registration. Select Next and you will receive an authenticator notification. Select Approve on your phone.
