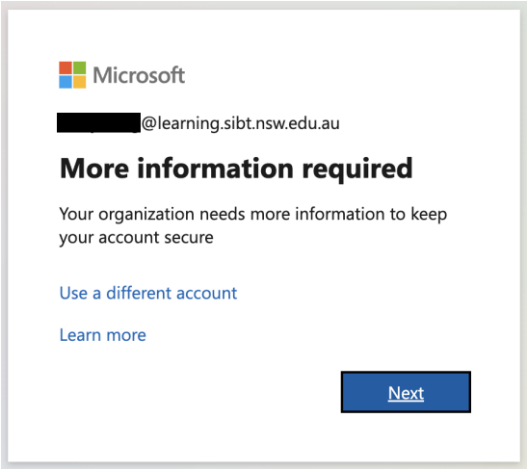
Step-by-step Instructions for SIBT Learning MFA

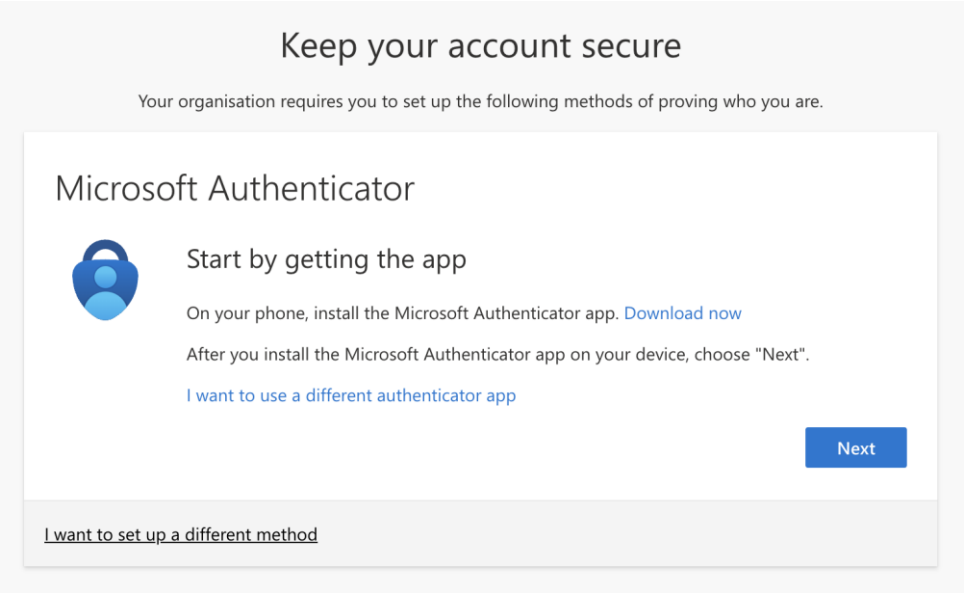
Following are the steps for enrolling your SIBT Learning account into MFA (multi-factor authentication). It is recommended to use a computer or laptop device for this process.

1. On your computer, go to aka.ms/mfasetup/ and log in with your SIBT Learning account.

2. After entering your password, the system will display a new prompt. Click 'Next'.



3. System will now start the MFA enrolment process.



4. You have two options to set up your MFA. You may choose whichever method that you prefer.

   Method 1: Authenticator app
   - Click "Next" and go to Page 2 of this document.

   Method 2: SMS Text Message
   - Click "I want to set up a different method" and go to Page 4 of this document.

Method 1: Authenticator App

Step 1: Use the following QR code or link to install the *Microsoft Authenticator* app on your mobile device. Skip this step if you already have the app on your mobile device.

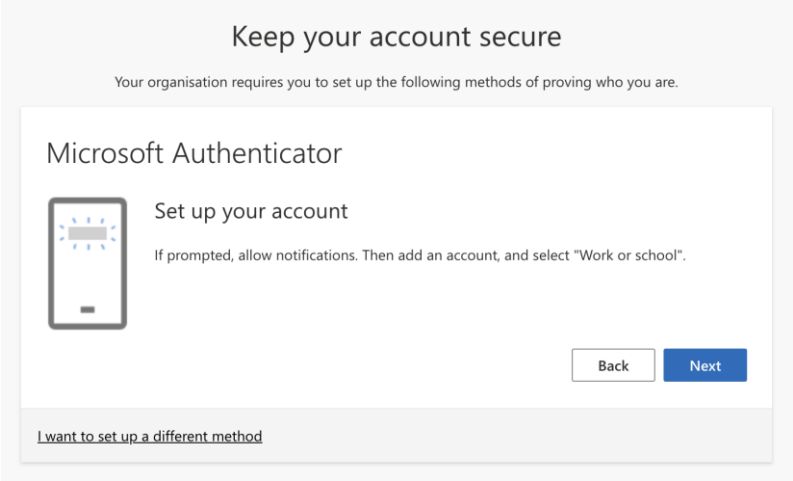
Google Play Store

Get the app

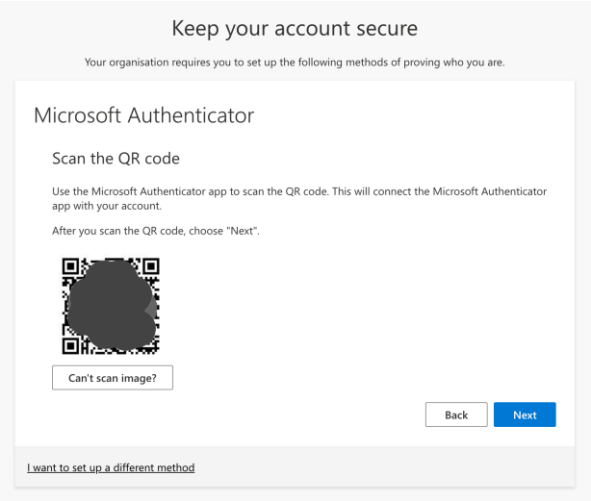
Apple App Store

Get the app

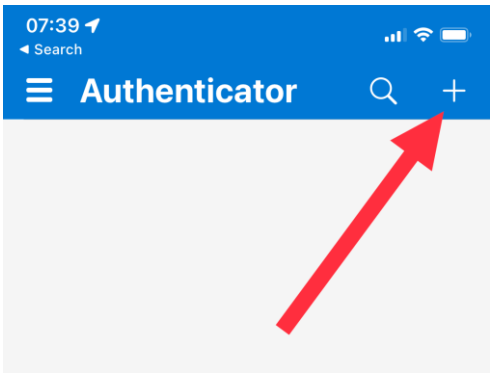
Step 2: Go back to your computer screen and click 'Next' from the following prompt.



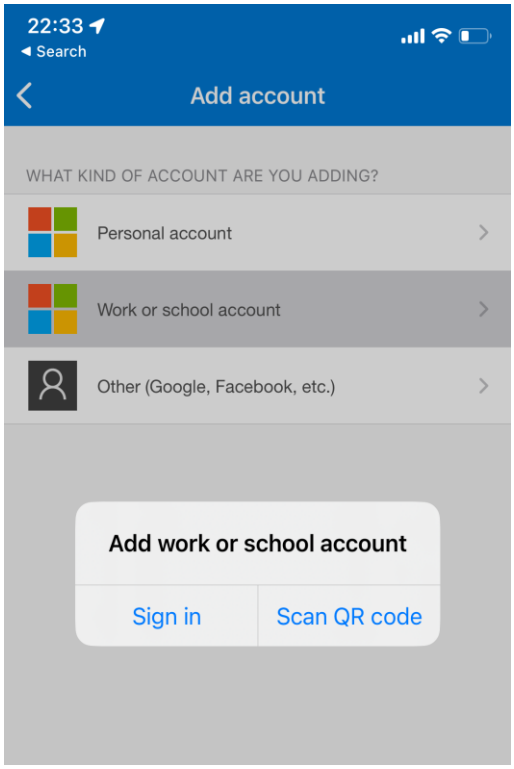
It will then display a QR code to scan from your Microsoft Authenticator mobile app:



Step 3: Open the *Microsoft Authenticator* app on your phone and click the '+' in the top right of the screen to add a new account. Select 'Work or school account'.



Step 4: The app will show a box option. Choose 'Scan QR code'.



Step 5: Scan the QR code displayed on the computer screen using your phone and click "Next".

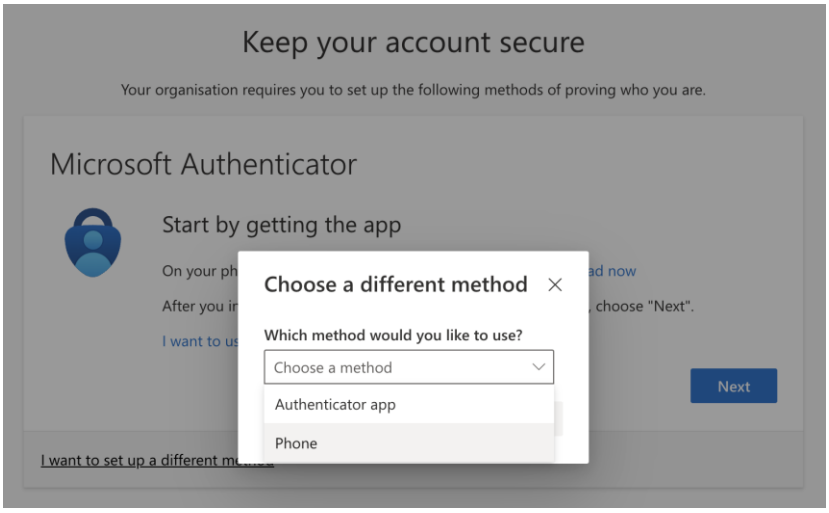
Step 6: Approve the notification on your phone by entering the number shown on your computer screen.

Step 7: Click "Next". Your account should be added to the Microsoft Authenticator app.

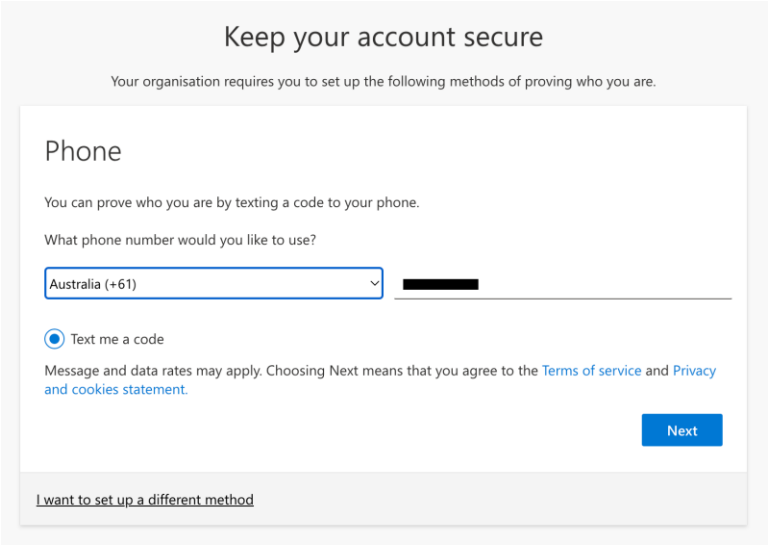
Congratulations, you've completed the MFA enrolment successfully!

Method 2: SMS Text Message

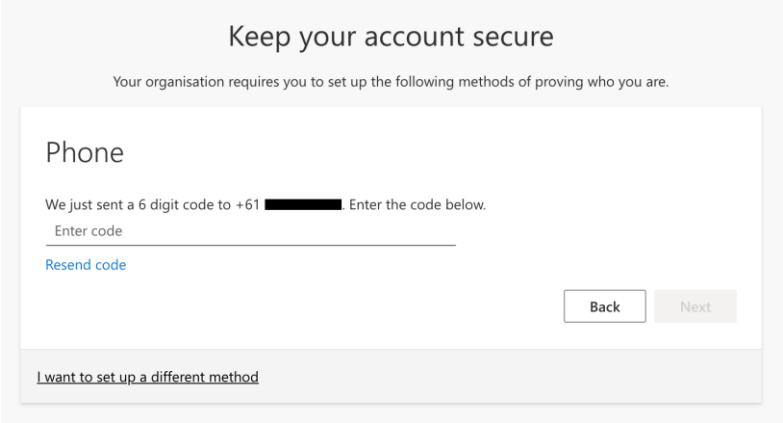
Step 1: After clicking ‘I want to set up a different method’, you will be offered a choice of methods. For SMS, choose the ‘Phone’ method.



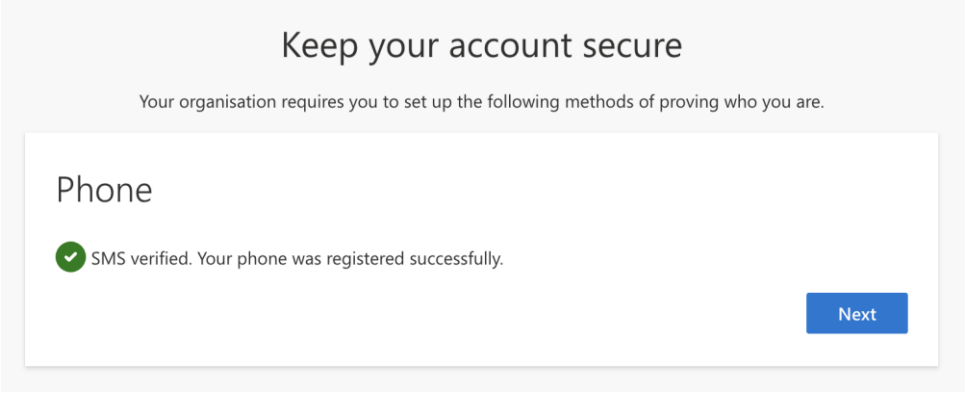
Step 2: Choose ‘Australia (+61)’ and enter your mobile number. (If you have a number from outside Australia, it is recommended to use the Microsoft Authenticator as explained above.)



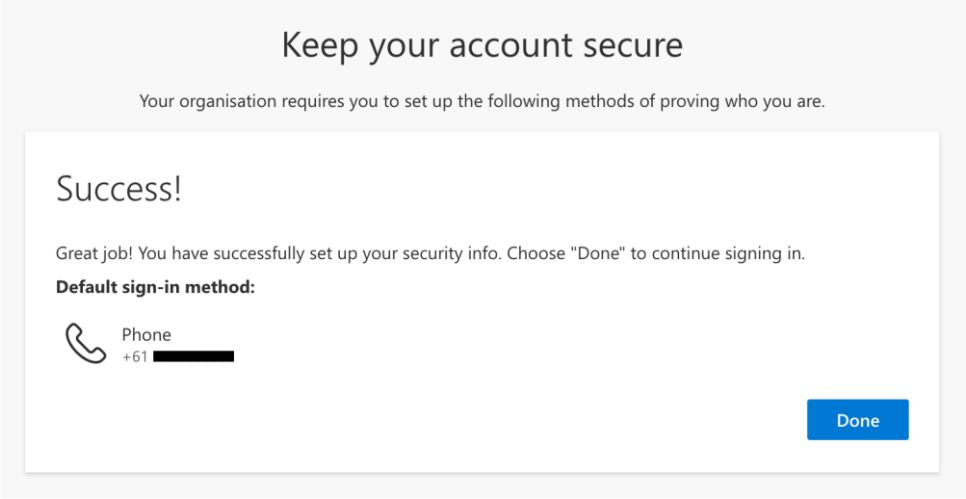
Step 3: The system will send a code to your phone by SMS, and provide you a form where the code should be entered:



Step 4: If the correct code is entered, the phone will be registered successfully:



Step 5: The system will provide a final confirmation that the phone number has been successfully registered for SMS.



Congratulations, you've completed the MFA enrolment successfully!

Quick Setup Guide

Computer: aka.ms/mfasetup/

- Username: *studentID*@learning.sibt.nsw.edu.au

Phone: Download Microsoft Authenticator App

- Click “+”.
